

Twilights Child

Emma is a young woman entering the prime of her youth, a time when most girls are only worrying about how they look and meeting boys, when sets out on the most difficult path into the West to follow her family and their dreams of living a frontier life. Emma is faced with following the same trail her parents traveled with fatal results as she desperately attempts to locate her missing brother, Cleve, who has either been killed or abducted by Native Americans. Along the way, she unexpectedly finds love in a trail hardened wagon-hand, Elias Maddock. Filled with excitement, suspense, and drama, Emmas journey does not end after she and Elias settle and build a successful farm together. Emma finds that the deep resentment she harbors concerning her brothers disappearance will lead her through her most difficult challenge yet. Galdula wittingly guides her audience through a complete circle in her story of a pioneer woman whos peace will only be brought about by a Twilight Child.
