

## Abraham Lincoln and the Apocalypse

This book is about Abraham Lincoln's conflict with the Anti-Christ, Napoleon III. It covers a part of the life of Abraham Lincoln which has never before been treated. All of the events in this work are true and all of the characters are historical figures, including the mysterious Major Frazer who seemed to possess supernatural powers. Little else is known of him other than his assistance given to Napoleon III. This work covers the years 1836-1871 and follows the rise to power of the two most important figures of the era: Abraham Lincoln and Napoleon III and their destined conflict. It was at a time when Napoleon III had conquered most of Europe and large parts of Asia. He now had his eye on the United States and saw the Civil War as a way to gain entrance onto American soil with or without aid of the Confederacy. More than a review of history, this work also compares the confrontation between Lincoln and Napoleon III and their relationship to the prophecies surrounding the Apocalypse. What were the reasons Napoleon III was considered the true Anti-Christ? How did Lincoln exactly fit into the prophecies? These are covered in detail in this book within the historical context of the time.
