

## Epiphany: A Glimpse into the Mind of God

Epiphany is a non-fiction study on apologetics. This study goes into an area which is considered by many to be mystical, and therefore taboo. However, what man may frown upon as having divine meaning that is beyond human understanding, God Almighty sees as a perfect venue for man to communicate with him. If you have been told that only an expert in theology can delve into the word of God, then why does God tell you to read, study and meditate on his words so that you can learn what his plans and goals are for you
