

## The CEO (The Game Changers Series Book 1)

Eve Bryant finds herself moving across the country with only one goal to rediscover herself and get her life back on track. Leaving a disastrous marriage, she swears off men and relationships, but when she meets sexy, charismatic Grant Mitchell, her new rules fly right out the window. Grant is a born and bred businessman, and he always gets what he wants. The moment he lays eyes on Eve, Grant is determined she will be his. She's different from other women he knows too stiff, too prim but her smile pierces his heart and he longs to see what she's like when she lets her hair down. They discover a powerful and undeniable connection, leading to a fast-moving relationship that leaves Eve whirling in its wake. The odds are stacked against them, and trust is hard to come by. A woman scorned, a troubled ex-husband, and a mother bent on orchestrating her son's future to suit her own agenda make for a very rocky road. The new couple may not last, no matter how strong their feelings for each other are. Grant is willing to fight to keep Eve in his life, but after recent events, Eve isn't sure she has any fight left to give. Will outside forces drive Eve and Grant apart? Or will they learn there's no love greater than the one you fight the hardest to keep?
