

1st Place Winner BEST STORY -- 2012 Bondage Awards! Sizzling hot, authentic bdsm with an intricate plot. Deprived of her tongue in shocking acts of violence at the age of 12, Faesca knew only the worst abuses of a cruel usurper and his sons. Grown to a young woman, stolen across the sea to be slave in the country of Mida, she is delivered, starving in too many ways, into the kindest hands of a royal family promising protection and love. And intense delights of the flesh too astounding to be denied. At their hands, she learns what used to be torture can be rapturous with a skilled Master. Renamed Peeper, she is reminded she is not the nobody she had been told she was. Her Journey is one from darkness into light, from oppression to personal freedom, from child to woman...from fear to love as she is educated by the Royal Family of Mida. Not merely writing and arithmetic, but in the ways of the Midan Royal Love Slave...in the manner of Thrall...and the machinations of at least two sets of royals with their own agendas. But is Prince Preece the right man to place her future with? Or is his love another manipulation of King Axlar and his shrewd mother the Regent Queen Ande? Many paths cross at this intersection in the history of Gethis. PEEPER takes place in Near Ancient times, before the discovery of electricity and invention of motors; when man, animals and water powered farm equipment did the work and anesthesia doesn't exist. A time when crimes against the Crown bring a swift and gruesome death and murders can easily go unsolved. When defying the will of the Gods could bring their direct wrath, and a blessing from the Goddess Fate is a very real and personal act. Pleasure and pain are one and the same because they both come from you. Peeper Search the Create Space STORE for TylerRose to see all my titles on one page!
