

## Her Task (The Spymistress Book 1)

In a world ruled by men, being a woman was her greatest strength. It's the hardest thing she's ever had to do - but could it be the most liberating, too? The eldest daughter of the disgraced House of Sharnet has always tried to behave like a lady - even in the face of her father's drunken rants, and the scorn she receives for her hated Mirdonian ancestry. But when she has a chance to prove her worth as a potential spy, she discovers a new world of freedom and raw physicality that's hers for the taking if she can hide her noble origins and become one of the common people. This compelling and sensual tale is just the beginning of her adventures.
