

## Hope Away From Home

For the Overseas Filipino Worker, life away from home can be lonely and difficult. The better opportunities other countries offer cannot compensate for what the migrant worker contends with - homesickness, cultural differences, sometimes even ostracism. Bestselling author Evelyn Miranda-Feliciano gives voice to the longings and pursuits of the OFW in this timely and relevant book. Using the Old Testament book of Ruth as a backdrop, she offers valuable insight into the circumstances and challenges surrounding the person transplanted from home to a strange place. The fresh perspective on life overseas that this book presents will touch not only OFWs and their families, but also anyone who has had to deal with feeling like a stranger.
