

The Believer

There is a place where the threat of foreign terrorism is nonexistent, where there are no arguments about religion, and no battles over politics. Welcome to New Americaa place where reading the wrong book can cost you your life! Ian Roshek finally believes in something. The young history professor has studied a contraband copy of the Book of Mormon and he knows what it says is true. But now his newfound convictions will be put to the test as he struggles to listen to the still, small voice, while society screams in his ear. Ians sister Jill and her influential boyfriend only see Ian as a man with religious delusions--a man who needs help. And though her facade of brutality hides it, police interrogator Alisa Kent feels a trace of compassion toward this flawed, but courageous man who stays true to his faith--despite the fact that its contrary to both logic and public opinion. If only for selfish reasons, she wants to know more. But soon Ians choices will ignite a chain of events that he, and those around him, cannot escape. A taut, must-read thriller, The Believer will cast a lingering shadow and leave you asking what you would give up in order to feel safe.
