

The Asher Codex: Alef

With many of these teachings being made available in print for the first time at the behest of Dr. Ashers many students worldwide, The Asher Codex is the first compilation of critical individual Torah teachings culminating from thirty plus years of study and teaching by Dr. Asher. This first edition published this year 2013, R Shmuel Asher The Asher Codex will prove to be a leading reference work on the major ancient to contemporary religious cult systems, a resource text for those people truly searching for the original paths, and willing to put in the required study to know it. Unlike Dr. Ashers previous books, The Asher Codex is a Masters level resource guide to aid those attempting to learn and teach others. With an emphasis on the currently active, proselytizing cults, and the predecessor ancient cults that led us to this point, the Asher Codex will continue to be a crucial tool in counter-cult ministry and evangelism, a driving force emphasizing the Creators Original truths for all man. While remaining true to his first three books tone and information, this first time compilation of Dr. Ashers controversial teachings, edited by Neshamah Eliot, includes substantial new information beyond that of his previously public teachings. Scholarly yet readable, an engaging unique voice in defense of the Creators original, but suppressed instruction to man. Albeit all of Dr. Ashers books have touched on the false Judahs influence over the original path, The Asher Codex evaluates Judahs ancient cultic history, beliefs, and influence over the texts and rituals that have come forward into our modern Western religions, in much greater detail. This is an invaluable reference work for both scholars and laypeople, contrasting individual teachings with a more original cultural Hebraic understanding, and linguistically corrected biblical theology. Most readers who are

leaving their modern religious orders behind in search of the original path will find apologetics help in dealing with their cults, and a new ability to refute their old arguments with stiff factual, detailed information. Some of the chapters and topics include: The Circular Logic of Man Whats in a Name Who is Judah? The Sacrifices of Judah Origins of the Talmud Ancient Laws & Languages The Two Laws Historical Proof from Egypt to Moshe Kill Your Speed, Not Your Camel Original Torah for all Man Key Words of Genesis Evening to Pagan Evening 3 Feasts or 4 Renewals? Was the Sabbath given to man? Travel on the Sabbath day Elijah why are you here?
