Hot its tmet dutt, perhaps, but its antiquity t Chap. zzii. 16. themselves do not dispute, but freely allow, that it wai taken for a genuinely Mosaic book, and that it was this fact which gave it its authority. The last thing, we may be certain, that would enter the minds of Josiah or of those associated with him, was that the book which so greatly moved them was one newly composed by prophetic or priestly men of their own circles. This was a point, moreover, on which we may be sure that king and people would not be readily deceived. People at no time are easily deceived where their own interests or privileges are concerned, but in this case there were special difficulties. A new book, after all, does not look like an old one; and if high priest, scribe, king, prophetess, were misled into thinking that they were dealing with an old Mosaic book, when the parchment in their hands was one on which the ink was hardly dry, they must have been simpletons to a degree without parallel in history. On the other hand, assume the book to have been old, mouldy, defaced, and what are we to say of its recent origin? Did ita authors, as Oettli asks, disfigure the book to make it look old?1 (2) To these objections, there is but one plain answer, if the Josianic origin of the book is to be upheld, and that is an answer which the more influential leaders

of the new school do not...
