

Undressed: The Naked Truth about Love, Sex, and Dating

In a world where we don't know whether we're dating, courting, hanging out, living together, or just having sex, Jason Illian exposes the naked truth about relationships. There is magnificent middle ground between kissing dating good-bye and kissing everyone good night, says Jason Illian, who made waves on 2005s *The Bachelorette* for his outspoken position on sexual integrity. In *Undressed*, Illian brings a fresh voice and much-needed perspective to the discussion of sex among single adults as he helps readers apply uncompromising moral principles to their dating relationships. Can single adults embrace their sexuality without sleeping around? Yes, says this national speaker, TV personality, and former corporate executive who tackles the controversial issues that make dating so difficult. *Undressed* helps single adults uncover their hearts and unleash their passions - without compromising their convictions.
