

Marko Jauhiainen contributes to the ongoing discussion regarding the use of the Old Testament in Revelation by seeking to clarify the question of how exactly the book of Revelation uses the book of Zechariah. Undertaking a thorough examination of the links between the two documents, the author concludes that the number of allusions to Zechariah is significantly smaller than often maintained and that the exaggerated claims are at least partly traceable back to inadequate methodology. Yet Johns use of Zechariah makes a significant contribution to Revelation. The burning issue for Zechariah was the coming of restoration of Gods people and John brings closure to open, unfulfilled prophecies, offering his own vision as the final word on the question of when and how this restoration will take place. Partial Contents: Revelation as a vision? Johns audience & sources. Johns use of the OT. Survey of previous methodologies. Zechariah & the restoration of Israel. Analysis of allusions to Zechariah 1-14. Johns use of Zechariah. Conclusion. Bibliography. References. Modern Authors. Index of subjects and key terms.
