

The World English Bible (WEB) is a modern English translation of the Holy Bible. It is based on, and is an update of, the American Standard Version (ASV), which was published in 1901. A custom computer program updated the archaic words and word forms to contemporary equivalents, and then a team of volunteers proofread and updated the grammar. The New Testament was updated to conform to the Majority Text reconstruction of the original Greek manuscripts, thus taking advantage of the superior access to manuscripts that we have now compared to when the original ASV was translated. The style of the World English Bible, while fairly literally translated, is in informal, spoken English. The World English Bible is designed to sound good and be accurate when read aloud. It is not formal in its language, just as the original Greek of the New Testament was not formal. The WEB uses contractions rather freely. This edition of the World English Bible New Testament is brought to you by author Wayne Davies of GodWroteTheBook.com. To receive 2 free gifts to help you read, study and understand the Bible, visit our website at www.GodWroteTheBook.com.
